PIGMENTS & DYES

We are authorised distributors for Sudarshan Chemicals Industries Ltd., supplying their full range of world-class pigments to the plastics, paints, coatings, inks and cosmetics industry. Sudarshan Chemicals is the largest manufacturer of pigments in India with a commanding market share and technically superior products that have received global recognition.

Inorganic Pigments	Lead Chrome, Iron Oxide and Cadmium Based Pigments
Organic Pigments	Azos, Phthalocyanine Blue & Green, HPP chemistries
High Performance Pigments	Benzamidizolones, Quinacridones, Anthraquinones and Isoindolinones with superior light fastness and weather fastness
CICP Pigments	Mixed Metal Oxide Pigments offering extremely high temperature stability and light fastness
Pearl Pigments	Natural Mica and Synthetic Mica based pearlescent pigments for silky sheen to shimmering effects for use in paints, plastics and cosmetics
Pigment Dispersions	Water Based Pigment Dispersions for ease of use
Titanium Dioxide	Imported Rutile Grades with consistent whiteness and opacity
Buff Titanium Dioxide	Buff Coloured Rutile Titanium Dioxide for economical applications
Carbon Black	ASTM Grades N330 and N220
Opacifier	Lithomer Series for partial replacement and spacing of TiO ₂
Solvent Dyes	High Quality Solvent Dyes for plastic masterbatch application

MINERALS AND FILLERS

We are authorised distributors for 20 Microns Ltd., supplying their full range of world-class functional specialties, performance additives and industrial minerals to the paints, coatings, construction chemicals, inks, plastics and cosmetics industry. 20 Microns Ltd are pioneers in the field of industrial minerals with a wide array of products in the performance additives and value-added specialties segments catering to niche as well as mass markets.

Minerals listed below are available in various mesh sizes and with surface treatment.

Calcium Carbonate (Calcite)	Precipitated Barium Sulphate
Coated Calcium Carbonate	Barium Sulphate (Barytes)
Talc & Steatite	Precipitated Silica
China Clay (Off White & Pure White)	Silica Flour
Hydrous Kaolin (Pearlgloss Series)	Mica
Calcined Kaolin	Dolomite

SPECIALITY ADDITIVES

We supply a wide range of specialized additives to the coatings, plastics, construction chemicals and allied industries as listed below. We are technocrats first and take pride in the quality and technical support we can offer with these products.

Defoamers & De-Aerators	Defoamers based on Mineral Oil, Silicone and Speciality Chemistries for aqueous as well as solvent based systems such as epoxy coatings and unsaturated polyester resins
Fumed Silica	Hydrophilic and Hydrophobic Grades of Fumed Silica for thixotropic control in coatings, adhesives, sealants and for improved substrate bonding in composites of unsaturated polyester resin
Matting Agents	Surface Treated and Untreated Matting Agents for Dead Matte Finish
Dispersing & Wetting Agents	Non-Ionic Surfactant Based agents for better wetting and improved dispersion of pigments and filler particles in your formulation
Metallic Stearates	High Purity Zinc Stearate and Calcium Stearate
Speciality Driers	High Performance Driers for Alkyd Enamel Paints
Waxes	High Viscosity PE Waxes and EBS wax for lubrication in plastic masterbatch manufacturing. Low Viscosity PE waxes and Polyamide Wax based pastes for better dispersion of pigments in coatings and scratch & mar resistance.
Organoclays	Bentonite Clays used for anti settling properties in solvent based coatings. They are used as a co-thickener in combination with cellulosic thickeners in water based coatings
HASE Thickeners	Hydrophobically Modified Alkali Swellable Emulsions Rheology Modifiers used in Water Based Coatings
Powder Coatings Additives	Matt Hardener and Flow Agent for Epoxy and Epoxy-Polyester based Hybrid Powder Coatings

RESINS & HARDENERS

We are supply a full range of epoxy resins, reactive diluents, hardeners, modified epoxy systems and acrylic emulsions to the paints, powder coatings, construction chemicals, grouts and floor coating industry. With strong technical support, consistent stock availability and our commitment to customer satisfaction, we can help you find solutions for your resin system.

Product Range

- Un-modified Liquid Epoxy Resins
- Solvent Cut Epoxy Resins (75%)
- Solid Epoxy Resins
- Reactive Diluents
- Polyamide Hardeners
- Cycloaliphatic Amine Hardeners
- Accelerators
- Redispersible Polymer (RD) Powder
- Acrylic Emulsions

Areas of Application

- Industrial Coatings & Paints
- Powder Coatings
- Adhesives
- Sealants
- Grouts and Mortars
- Floor Coatings
- Architectural Coatings
- Putties
- Composites

ABOUT CILANTRO CHEMICALS PVT. LTD.

Cilantro Chemicals Pvt. Ltd. is a Mumbai based Chemicals Distribution and Marketing Company born out of the need to provide technologically sound and complete solutions to serve the needs of the chemicals sector. Led by technocrats with broad experience in the chemical industry, we are a professionally managed company committed to provide excellent services in the domains of trading and marketing, backed by technical support and auxiliary services, with competitively priced offerings. We believe in sustainable growth through partnership and knowledge-driven work ethic.

WHY CHOOSE US?

- ❖ In this highly competitive and crowded field of chemicals trading, we stand out as a **technically competent and quality-driven enterprise**.
- ❖ When conducting business with us, you instantly recognize the **responsiveness, technical understanding and professional management systems** that come with our services.
- ❖ We deliver **tailor-made models of product solutions and development** to best suit your business needs and meet your financial goals.
- ❖ Our **commitment to customer satisfaction** means reduced complexities and increased efficiency in your company's growth.

OUR VISION

Our vision is to be recognized amongst the most competent and sought-after companies in India to offer chemical product solutions, that power innovation and sustainable growth.

OUR VALUES

We stand by our values of commitment to quality, integrity, high responsiveness, responsible growth and differentiation. Our values shine through in our work ethic with every stage of our partnership with you.

OUR TEAM

We are a team lead by technocrats and professionals. Our Managing Director **Mr. Suhas Sathe** brings to the table vast project management, operations and business administration experience, with 30 years of experience encompassing petroleum refinery, FMCG and Chemical/ Multi-product companies. Our director **Mr. Sameer Sathe**, a product of the world-renowned Institute of Chemical Technology (formerly UDCT), Mumbai and a Post-graduate from the University of Michigan, brings with him technical know-how and research competency, and leads the company's technical marketing efforts.

All our sales executives are chemical engineers with a keen interest in sharing knowledge of the products in our portfolio and catering to application specific customer needs. Our back office and accounts team is well-equipped to ensure a delightful customer experience.
